MALAYSIA SABAH, KOTA KINABALU, SABAH**

**CLIENT : BHO-MELATI SDN BHD
DRAWING NO. : PJP/P168/TSP/5A&6A
SERIAL NO. : TSP.01/09.2014/R/1142**

Your submission vide ref. PJP/P168/Cor/10 dated 16 July 2015 pertaining to the above mentioned subject refers.

2. Please be informed that the Traffic Site Plan (TSP) is approved subject to the following conditions :-

- 2.1 The approval given to the TSP will lapse upon the expiry of the Development Plan (DP) approval.
- 2.2 Dewan Bandaraya Kota Kinabalu (DBKK) will not be restricted to impose conditions / requirements on the Developer to review the TSP after the expiry of the DP plan approval or there are changes made to the DP.
- 2.3 Unless otherwise agreed and stated, the Developer is wholly responsible for any road improvement works as shown in the approved TSP except for certain area that have been agreed and marked for contribution by others and government.
- 2.4 This approved TSP is not construction drawings for implementation purpose, but it is merely a conceptual plan, which must be followed by engineering detailing that should be separately prepared by the C&S engineer and submitted for checking and approval prior to commencing any physical works on site.
- 2.5 All submissions should be in accordance with JKR Manual on Traffic Control Devices, Road Marking and Delineation.

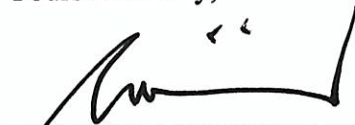

Certified To ISO 9001 : 2008
Cert. No. : MY-AR-4890

- 2.6 The Developer is to submit relevant C&S details for the improvement works including the bus stop, walkway, road and drainage. As soon as the Engineering Plans relating to the access road connecting into or within DBKK or JKR is approved, the Developer must submit wayleave application to the relevant office for approval prior to commencing work on site.
- 2.7 C&S Engineer should take into account the dimensions of the recommended storage lane with respect to the traffic analysis and report findings.
- 2.8 No site works shall be carried out on public roads unless wayleave has been obtained from the authority.
- 2.9 The Developer is responsible to liaise with the relevant utilities agencies for the relocation of any services found on the road reserved.
- 2.10 All the mitigation works to be contributed by the Developer are shown in the approved plan.
- 2.11 For road under Jabatan Kerja Raya's (JKR) jurisdiction, an updated junction geometric drawing shall be submitted to JKR for checking approval, followed by submission on details of road marking and traffic signages. Roadside drainage design details shall also be submitted to the relevant agencies for checking and approval.
3. Enclosed herewith please find a copy of the duly endorsed documents for your retention.

Thank you

Yours faithfully,

(DATUK ABIDIN MADINGKIR)
